Federal Legislative Report - January 2020

Last Updated: February 09, 2020

Executive Summary

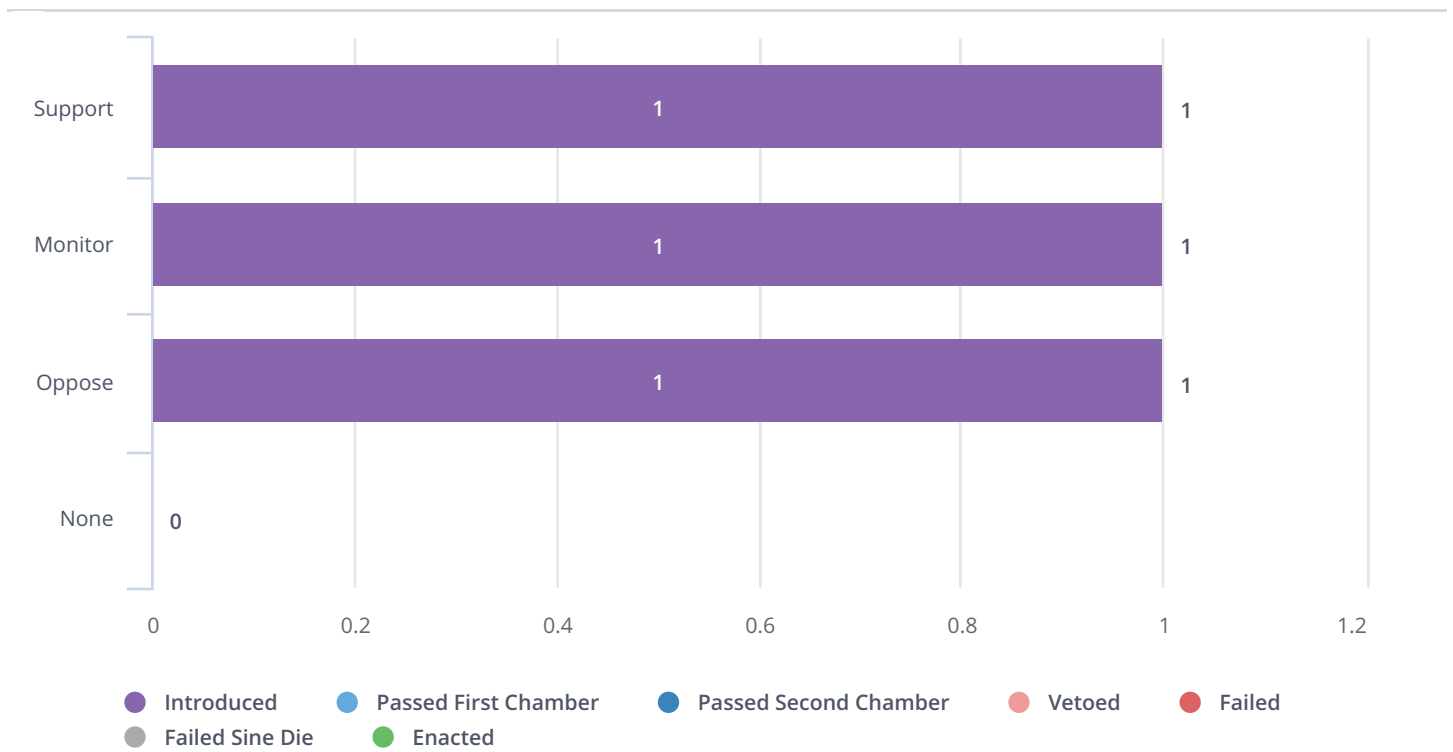

If there is any example of how little was accomplished in Congress due to impeachment, it would be the number of bills that were introduced or moved in January 2020. Only three (3) pieces of legislation were tagged for monitoring.

H.R. 5712 was introduced on January 29, 2020 and is titled the "Nationwide right to Unionize Act". This bill would repeal a provision in the National Labor Relations Act that allows states to enact "right to work" laws that prohibit mandatory membership in a labor union as a condition of employment. We do not expect this bill to travel far even if it makes it out of the House, but we will keep it on the radar.

H.R. 1076 is a federal "ban the box" bill that would require federal agencies and contractors to abide by the requirements included in the bill, which prohibit inquiring about an applicant's criminal history until a conditional offer of employment is made. This bill does have some bi-partisan support.

S. 2779, titled the "Luke and Alex School Safety Act of 2019" would create a clearinghouse on best practices for school security and safety collected by local and state school agencies. This bill was originally filed in November, was reported favorably out of committee the next day and on January 6, 2020 it was placed on the Senate Legislative Calendar.
