# State Legislative Report - October 2019

Last Updated: November 07, 2019

## Executive Summary

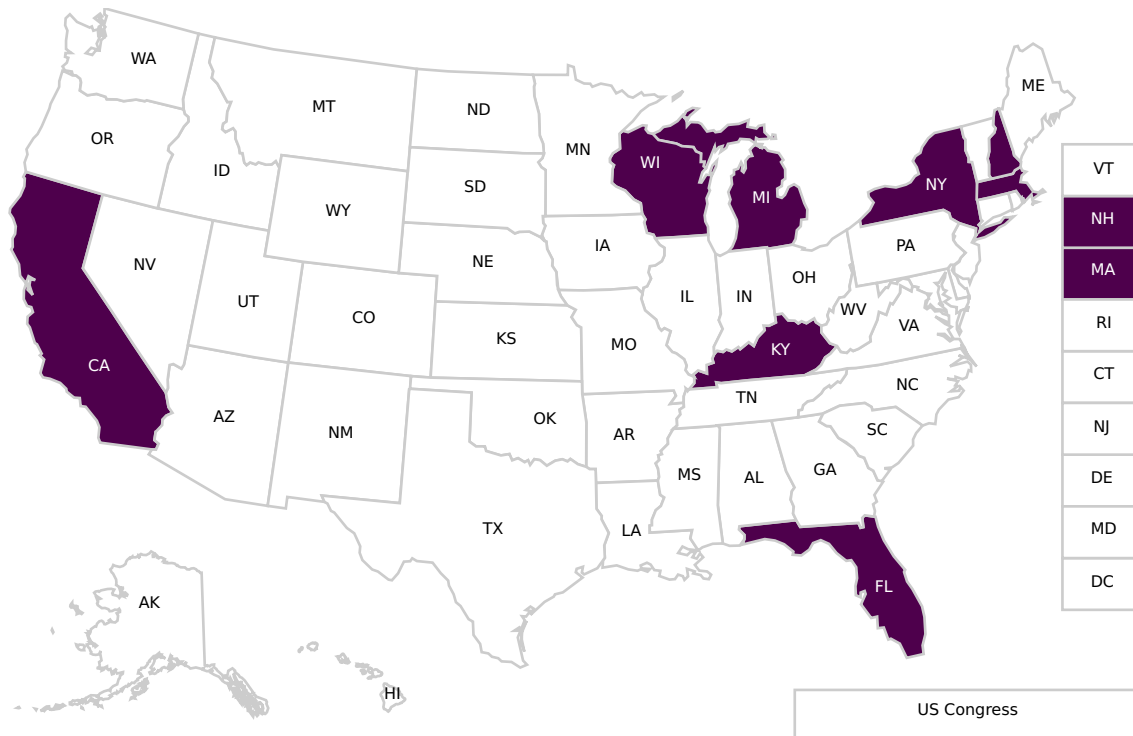

California enacted several laws and the Governor actually vetoed a couple during October. AB 25, AB 1355 and AB 874 amend the Consumer Privacy Act of 2018 and were enacted during October. Another bill that was enacted was AB 1132, which addresses deceptive caller identification and fraud.

The Governor vetoed two bills we were tracking in October. AB 476, known as the California Opportunity Act of 2019, would have required the Department of Consumer Affairs to create a task force to study and write a report regarding the licensing of foreign-trained professionals with the goal of integrating foreign-trained professionals into the state's workforce. He also vetoed AB 1677, which was written to protect call centers from leaving the state.

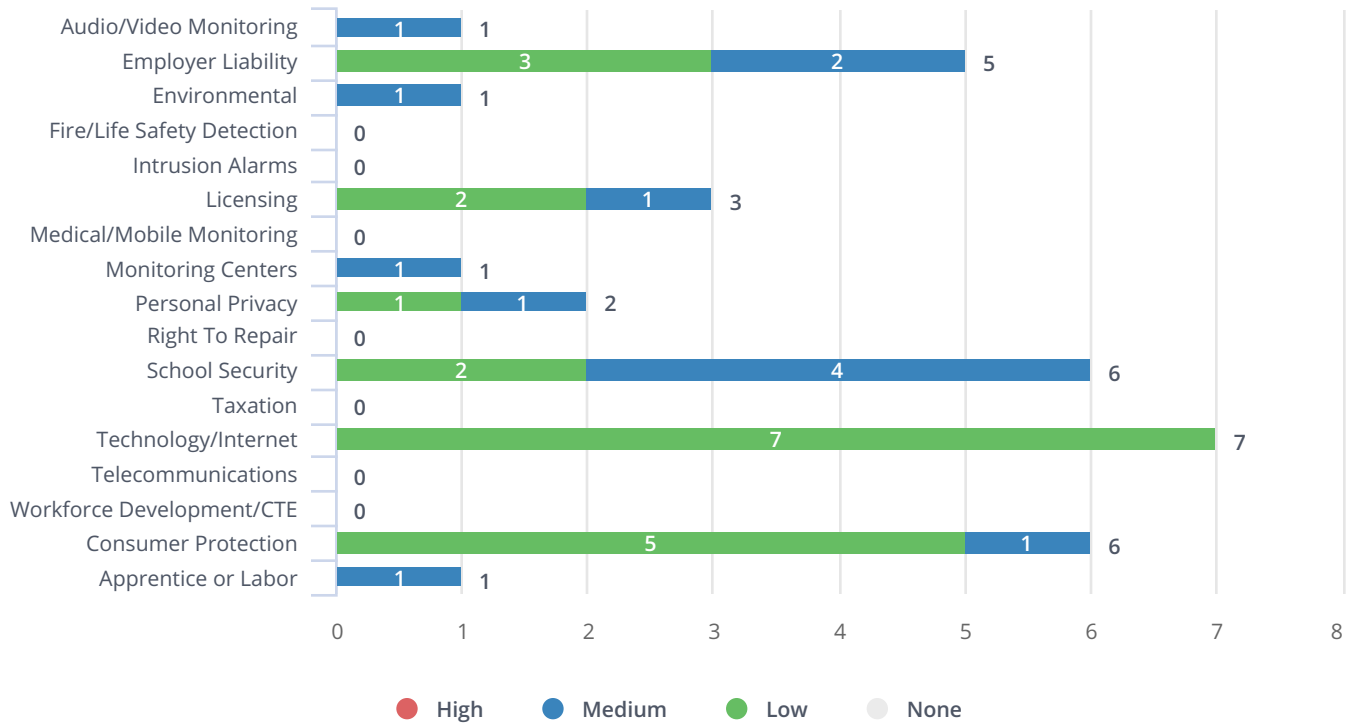

Massachusetts saw several bills being revived and scheduled for committee meetings. These bills covered several issue areas including net neutrality, school safety and a proposed ban on facial recognition technology.

Michigan HB 5080 and SB 561 were introduced in October and would provide up to \$50,000 per school or \$250,000 per school district for technology equipment, upgrade hardening measures, or conduct school building safety assessments to improve the safety and security of school buildings, pupils, and school staff with the goal of creating a safer school environment through equipment and technology enhancements.
